

Non-Crypto Payments

Overview

The BizNet mission is to help everyone become as comfortable using cryptocurrency as they are with using cash and credit cards. To assist with the initial learning curve BizNet also provides several temporary options to pay with other convenient methods.

Mobile Cash Apps

The following mobile cash apps are supported for BizNet payments. The name on the accounts will appear as Robert Allen Wood.

VENMO – Account ID: **@bobwood56**

WISE – Account ID: **robertallenw12** OR **+14697671511**

Submit your payment with one of the above mobile payment apps. Enter the corresponding Account ID as the account to pay. Include your name and/or member # in the notes for the payment.

Credit Cards

BizNet does not accept credit card payments directly to avoid potential fraud from scammers. Credit/Debit cards can be used to purchase cryptocurrency from 3rd parties that can be used to make payment.

The best option is to use the BizNet cryptocurrency processor to pay with a credit/debit card.

If you have a payment pending, you will see a pop-up window in your back-office with a blue “Pay Crypto Now” button. Click the button to select from over 25 different coins and tokens.

After selecting, a QR Code and coin address will be displayed to make the payment. Near the bottom of the page, you can click the black “Pay by card” button.

This option will walk you through the process of verifying your identity to allow you to enter your credit/debit card for payment.

You can also purchase cryptocurrency from other exchanges (like CoinZoom.com) with a credit card to make your BizNet payment in crypto.

Leader Pay

Another option for making your payment is to ask a leader to make your payment for you from their back-office affiliate wallet. If they have the funds in their wallet from their earnings or other deposits they can make your payment for you.

You can then pay the leader directly through whatever convenient means the two of you have, like Zelle, CashApp, etc.

This is a quick and easy way for you to make your payment.
